Foam Encasement with Pocket Coil

360° edge support foam encasement provides greater stability, a comfortable firm sitting edge, and reduces motion transfer across the sleep surface while the pocket coils give a substantial support to your body.

Soft Cotton Feel Fibers

Beautiful breathable soft touch feel designed to intensify both air flow and moisture helping to promote balanced temperature at the sleep surface.

Zone Pocket Coil

Zone pocket coil system is designed according to the human body shape to match different support needs in certain areas: head, neck, shoulders, hip, back and legs. With the Zone Pocket Coil system ideal spinal alignment is achieved.

Center & Lumbar Support

Provides flexibility and additional reinforcement within the core ensuring appropriate posture support while preventing the mattress from sagging.

Bio Gel Foam

Gel infused memory foam not only provides significantly more body support, but it also creates an ideal temperature regulated sleep surface. Breathable construction permits optimal airflow.

Graphite Natural Latex

Our Eco-friendly Latex is hypoallergenic, anti-microbial, and naturally dust, mite, mold, and mildew resistant. Latex provides a comfortable breathable sleeping surface with contouring support and pressure relief.
