Soft Cotton Feel Fibers

Beautiful breathable soft touch feel designed to intensify both air flow and moisture helping to promote balanced temperature at the sleep surface.

Comfort Layers

Quilted layers of foam and downy fibers combined with optimal support create specific structural properties that can help reduce tossing and turning and allow for improved pressure relieving comfort.

Talaly Natural Latex

Our Eco-friendly Latex is hypoallergenic, anti-microbial, and naturally dust, mite, mold and mildew resistant. Latex provides a comfortable breathable sleeping surface with contouring support and pressure relief.

Green Bio High Density Foam

Soy based bio foam offers improved durability, strength, and support over conventional foam cores. Based on natural renewable materials, soy foam provides a higher level of comfort.
